

Google

Workspace Studio

AI-powered automation,
already coupled with your
Business & Enterprise licenses.

Your New Day Looks Like This

Boost Your Inbox

- Get a daily summary of unread emails, **making you stay on top of your game**
- Label your emails and classify them with Gemini, **sorting your inbox ready for action**

Lead Better Meetings

- Get pre-meeting briefs about a client, and **come better prepared to close that deal**
- Generate post-meeting Docs with action items, **getting started on delivering quality now**

Keep Record of Important Stuff

- Extract structured data into Sheets from incoming emails, **giving you insight and clarity**
- Trigger workflows based on sheet changes and update relevant data, **never missing a beat**

Step 1: Based on a meeting

Step 2: Summarize

Step 3: Post in a space

Step 4: Ask Gemini

Step 5: Draft a reply

Wait, that's not all...

Discover more of Google Workspace with **happtiq**.

Gemini Enterprise

- Tap into more productivity thanks to the unified environment for your **1P and 3P data sources**; and pre- or custom-built **actionable agents**.
- Access source-specific data with **NotebookLM** and **Gemini**, and **orchestrate agents** to execute complex tasks that embed your business logic.

Gemini for Google Workspace

- Take **Gemini** with you across your Workspace to solve **specific tasks** or quickly spar new ideas.
- Leverage Gemini with the **context** of the **files** you work in, **grounding** it in your data.
