Database Migration PoC on Google Cloud

The challenge

Legacy on-premise databases are not designed for flexibility and dynamic requirements. As a solution, migrating to the cloud offers significant advantages, but it also comes with certain difficulties such as mapping application dependencies, ensuring data integrity, and optimising costs.

Addressing these challenges requires expert planning and execution.

Our solution

Our Database Migration PoC leverages proven expertise and industry best practices to demonstrate that migrations don't have to be complex.

We'll start by evaluating your infrastructure and collaborating with key stakeholders to design a tailored migration plan. The initial pilot migration will validate the process, followed by additional migration waves to ensure smooth transitions. Subject to eligibility, the project may benefit from a funding opportunity, letting you focus on strategic initiatives.

Your advantages

1

Benefit Matrix
Get a snapshot of your on-premise expenses and performance metrics, and discover how migrating to Google Cloud can amplify your success.

2

End-to-end Delivery
We've got everything covered: from infrastructure assessments and schema conversions to data migration, rollback strategies, and beyond.

3

Modernized Database
Experience a fully managed, infinitely scalable database with minimal downtime and enhanced application portability—all while saving costs.

4

Continuous Support
Beyond migration, we provide training and ongoing support to help your organisation adapt and thrive in the new cloud environment.

5

Runner-up Use Cases
We always keep the big picture in focus. Post-migration, we collaborate with you to identify and prioritise future projects for your continued growth.

Let us support you

Project Scoping
- Aligning on objectives
- Assessing feasibility and detailing the migration strategy
- Accounting for costs and needs

Database Migration
- Executing a pilot database migration to validate process
- Optimising for dependencies and database reliability

Strategic Delivery
- Delivering the PoC through a customer workshop
- Supporting with cloud on-boarding
- Envisioning future engagements

1 week   1-2 months   1 week

About us

Born in the cloud and a trusted Google Cloud Premier Partner for cloud solutions and integrations

Certified team of experts providing you with consulting services, training for employees, and continuous support

Successful projects with companies like: karriere.at EVN DER SPIEGEL
