## GenAI Discovery Workshop

### Elevate your expertise in GenAI

Dive into the transformative world of **Generative AI** with our focused workshop, designed to empower your team with the necessary skills to leverage **Google Cloud's** GenAI capabilities.

During the **1-2 days** sessions, you'll engage in identifying high-impact **use cases** tailored to your business, facilitating the creation of a prioritized **implementation roadmap**.

By the end of the workshop, you'll have not only gained valuable insights into GenAI, but also received a detailed **strategy paper**. This will serve as your **guide to leading** the future GenAI initiatives.

### We will support you

- acquire a complete overview of your company's data culture and readiness
- engage with the Google Cloud's GenAI solutions
- manoeuvre the brainstorming and ideation process
- drive the initiative post-workshop with tangible results

### Workshop outline

This workshop, led by **happtiq's** experts, will equip your team with the knowledge and tools on how to confidently navigate the realm of GenAI.

In the first session we will focus on **foundational knowledge** and **use case brainstorming**, whereas in the next we will delve deeper into the chosen use cases, outlining a **roadmap for implementation**.

Afterwards, we will touch base on the required **technical expertise** and our **Google Cloud solutions** for your use cases, and how we can work together to bring your ideas to reality.
